June 26, 1986

Dear Colleague:

As part of the Centennial Celebration of the Statue of Liberty, I am pleased to provide you with a commemorative T-shirt which proudly proclaims, "Liberty Lives in New Jersey."

It is a known fact that Statue of Liberty is situated in New Jersey's territorial waters. Her shining torch holds profound memories for the thousands of immigrants who settled in my area of the State, commonly known as the "Gateway to America." While The Lady truly belongs to all the people of the United States, there can be no question that she holds a special place in the hearts of people from New Jersey.

You may also be interested to know that the U.S. Board on Geographic Names has designated the waters surrounding Liberty and Ellis Islands as "Liberty Harbor" for the remainder of 1986 in honor of the Statue's centennial.

This T-shirt is provided through the generosity of Mr. Ziggy Wilzig, President of the Trust Company of New Jersey, who sends his wishes for a happy Fourth of July. "The Bank with a Heart," one of our leading banks, is celebrating its 90th anniversary this year. Please enjoy this token of the Liberty Centennial and take part in New Jersey's pride and enthusiasm.

I hope you will wear it with my best wishes.

Sincerely,

FRANK J. GUARINI
Member of Congress
